

DN150 MULTIFIT FROG FLAP

The main body suits DI and Series 2 PVC, add the adaptor ring and it now suits Series 1 PVC.

Application

- Minimise backflow.
- Stops pets/pests from entering pipelines.
- Prevent birds from nesting in box gutter overflows.
- Eliminate vermin access to pipelines.

Construction

All Prime Composites Multifit Frog Flaps are locally produced from the highest quality ASA (Acrylonitrile Styrene Acrylate) and are fitted with Stainless Steel hinge pins.

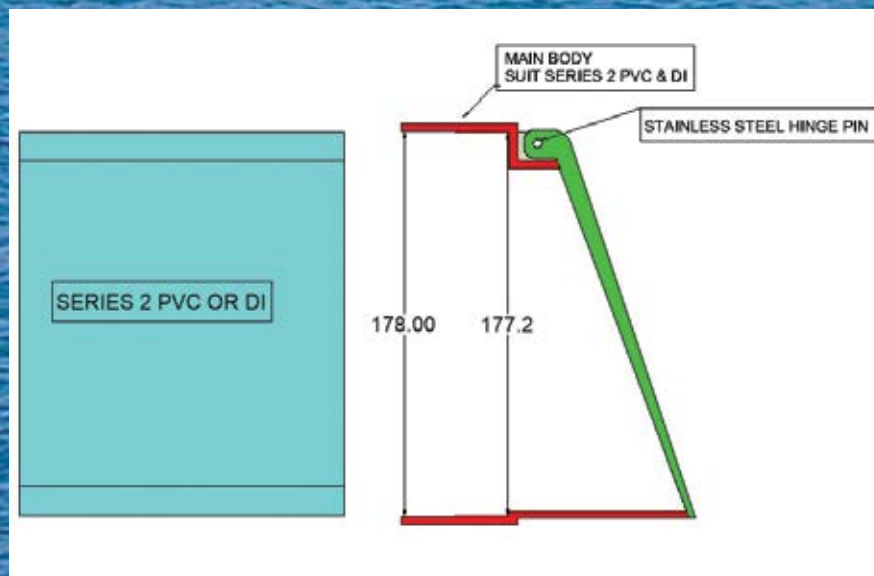

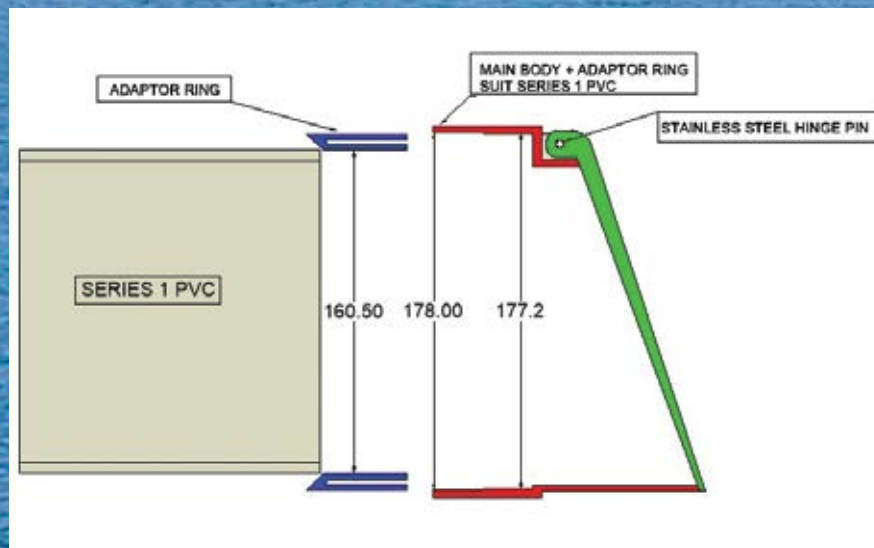

Advantages

- Excellent UV resistance.
- Superior weather resistance.
- High impact resistance.
- High heat resistance HDT (84°C).
- Quick and easy to install (solvent weld to PVC or silastic etc to DI).

Multifit

The main body suits DI and Series 2 PVC, add the adaptor ring and it now suits Series 1 PVC.
